Professional Software Inc.

Put **The "BOSS"**
To Work For You!

Thank you for your inquiry regarding **WordPlus-PC™ featuring The "BOSS"™** (Built-in **O**n-line **S**pelling **S**ystem). This is the most complete word processing system available anywhere for the IBM PC and compatibles, IBM PC-XT, Texas Instruments Professional, and DEC Rainbow 100. The enclosed literature contains valuable information which will help to prove that **WordPlus-PC featuring The "BOSS"** is the total word processing and spelling system that best suits your needs.

With over 75,000 word processors in use worldwide, Professional Software has designed **WordPlus-PC featuring The "BOSS"** to be an order of magnitude better than any other word processor on the market today. In fact, **WordPlus-PC featuring The "BOSS"** is one of the only programs ever to be rated EXCELLENT in all review categories by ComputerLand Corporate (see copy enclosed). This is a truly state-of-the-art "total" word processing solution - an entirely new technology that has already begun making other word processors totally obsolete.

The "BOSS" is a revolutionary word processing breakthrough - an interactive 90,000 word **B**uilt-in, **O**n-line **S**pelling **S**ystem (**BOSS**) that is integrated into the WordPlus-PC Word Processing System. In addition, you can even add your own custom words to the 90,000 word dictionary. And remember, **The "BOSS"** is NOT a "simple" spell checking program that must be purchased and used separately. Rather, **The "BOSS"** is an integrated, built-in part of **WordPlus-PC's** "total word processing system" that, in addition to all the sophisticated word processing functions, also checks and corrects your spelling. All automatically. All interactively. All integrated in one package for just $495 (suggested retail).

A Few WordPlus-PC Highlights

* **The "BOSS"** - Sophisticated word processing that checks and corrects your spelling. Expandable 90,000 word "standard" dictionary.

* Built-in Data Merge which allows you to create personalized letters. No other program is necessary. In addition, **WordPlus-PC** merges information created by most popular database and spreadsheet programs such as **DataPlus-PC™** (Professional Software's new easy-to-use Information Management System), 1-2-3™, Multiplan™, VisiCalc™, dBase II™ and many, many others.

* The ability to display and print organizational charts, bar graphs and foreign characters (with an IBM Graphics or Diablo 630 ECS printer).

* Customized and keyboard specific for IBM PC and 100% compatibles, IBM PC-XT, Texas Instruments Professional, and DEC Rainbow 100.

* Toll-Free Support Hot Line - At NO CHARGE for 90 days following receipt of your registered user's card.

DEMAND TO SEE **THE "BOSS"** at your local computer store! Or, simply dial 1-800-343-4074 if you need assistance in contacting the dealer nearest you.

Sincerely,

Ken Paradiso
